Where others manufacture, OBI discovers.

OBI was built on a single conviction: that the finest fragrance can only come from the earth itself. Every ingredient is traced to its source - mineral, plant, or resin - and extracted using proprietary technology that preserves molecular integrity from harvest to bottle.

The result is fragrance that doesn't simply smell extraordinary. It feels elemental. Grounding and ethereal at once.

ORIGIN

Minerals, plants, and resins sourced exclusively from the earth.

TECHNOLOGY

Cutting-edge extraction preserving raw ingredient integrity.

FEELING

Grounded yet ethereal - ancient materials, made new.

FORMAT

Extrait de Parfum - the highest concentration in fine fragrance.

*"Minerals. Plants.
Resins. Nothing else."*

"Fragrance born from the earth - elemental, ancient, and alive."

I.

ORIGIN

Every ingredient traces back to the earth. No synthetics. No shortcuts. Only what the ground, plant, and stone already contain.

II.

INTEGRITY

Cutting-edge extraction honors each raw material - preserving what makes it extraordinary from source to skin.

III.

DUALITY

Grounded yet ethereal. Heavy with the earth's memory. Light enough to feel like the sky. Both, always.

IV.

RESTRAINT

Nothing decorative without purpose. Nothing added that the earth didn't first offer. Minerals. Plants. Resins. Nothing else.

"The earth has always known how to make something beautiful. We learned to listen."

Color & Typography

The OBI palette is drawn from the materials themselves - the black of obsidian, the grey of quartz, the cool sheen of platinum. Nothing borrowed. Everything earned.

LOGO & MARK

The OBI mark uses a double-oval form - a lens, a portal, a contained world. The wordmark sits inside, held by two rules. Designed to emboss, stamp, engrave, and scale from bottle cap to billboard.
